DETAILED ACTION

Election/Restrictions

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claim 1-16 and 19, drawn to a voice mail service system, classified in class 379, subclass 88.25.
 - II. Claim 17 and 20-24, drawn to a private switching system, classified in class 379, subclass 198.
 - III. Claim 18, drawn to a line card, classified in class 379, subclass 166.

2. Inventions I, II and III are related as combination and subcombination. Inventions in this relationship are distinct if it can be shown that (1) the combination as claimed does not require the particulars of the subcombination as claimed for patentability, and (2) that the subcombination has utility by itself or in other combinations (MPEP § 806.05(c)). In the instant case, the combination as claimed Invention I does not require the particulars of the subcombination as claimed (e.g. the determining a busy or non responsive state and transferring steps as recited in Invention II, the interface and control circuit of Invention II) because they are shown to be separately usable. The subcombination has separate utility such as to provide voice mail function for retrieving a message and storing in a voice mail system, which is not required by inventions II and III.

Invention II is used to determine a busy or nonresponsive state of the subscriber, which is not required to have voice mail service nor a line card. See MPEP § 806.05 (d).

3. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

4. Examiner calls Mr. KIM, DANIEL Y.J., the attorney on record and he is informed that a written restriction would be expected.

5. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Conclusion

6. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Gerald Gauthier whose telephone number is (703) 305-0981. The examiner can normally be reached on 8:00 AM to 4:30 PM.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Fan Tsang can be reached on (703) 305-4895.
